

FICO U-TUBE MANOMETERS

FICO U-Tube manometers are manufactured in Australia by Austral Engineering Supplies. Rugged extruded aluminium cases with precision bore, borosilicate tubes and 316SS top and bottom blocks, suitable for wall mounting or portable use with either mercury or water.

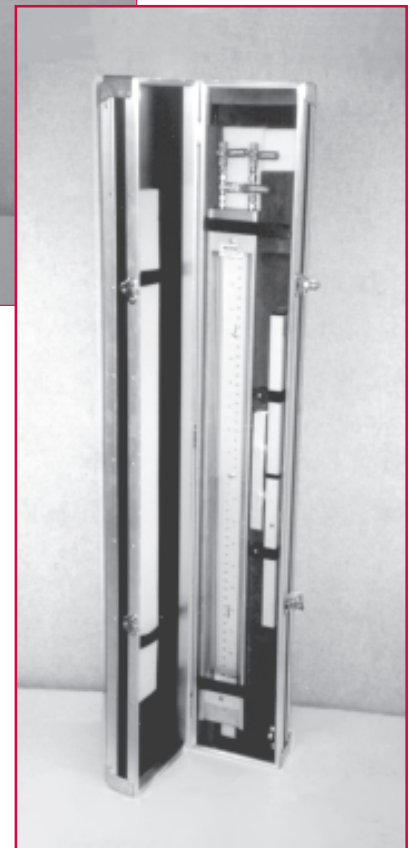

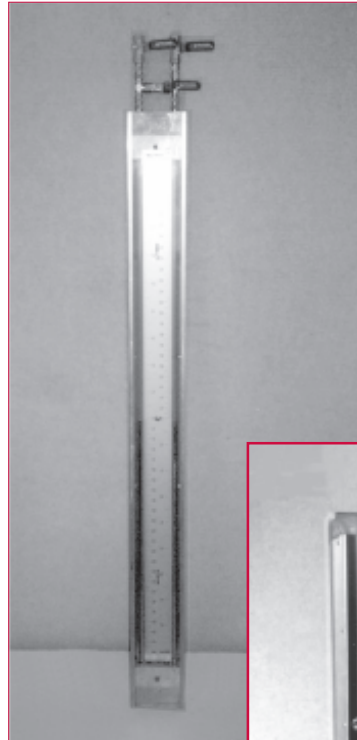

For increased safety all manometers have a perspex front cover as standard.

FICO manometers are available with scale lengths for pressure readings of 6 - 36" (15 - 91cm) and are for use with maximum static pressures of 2750 kPa (400 psi). Available in inches/centimetres water or mercury scale ranges with fill fluids of water or mercury.

Accessories:

- ◆ Three-way equalising manifold allows correct sequencing of pressures to allow various measurements and protect manometer
- ◆ Anti-overflow pots assist to prevent loss of Mercury fill fluid
- ◆ Carry cases featuring:
 - hard plastic thin fluted sides with aluminium edges; metal lock downs; internally foamed to suit manometer; internal compartment to accommodate 2 hoses and three straps to secure manometer in the case; support frame assembly to make case, with manometer, free-standing

protect the manometer from damage during transport and storage

Model	Range	Scale Markings	Division
2500P	6"	3-0-3 in 7-0-7 cm	0.1" 2.0 mm
2500R	18"	9-0-9 in 23-0-23cm	0.1" 2.0 mm
2500S	30"	15-0-15 in 38-0-38 cm	0.1" 2.0 mm
2500T	36"	18-0-18 in 45-0-45 cm	0.1" 2.0 mm
